**Public Hearing Disclaimer:**  
This map has been designed as a tool to be used in determining the order of speakers at this public hearing and is based on the best information available to the Louisiana Department of Environmental Quality's GIS Center at this time. The 2-mile radius circle was drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile radius circle may vary slightly if property boundaries had been followed, as opposed to choosing the center of the facility. Again, the map is strictly a tool to help speakers determine their location in relation to the facility.

**LDEQ Disclaimer:**

This map has been designed as a tool to be used in determining the order of speakers at the public hearing and is based on the best information available to the Louisiana Department of Environmental Quality as of the date of this map. The 2-mile buffer circle was drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile buffer could vary slightly if property boundaries had been followed, as reported to Calcasieu Parish. The map is strictly a tool to help speakers determine their location in relation to the facility.
